

International Partnership on Mitigation and MRV

October 20, 2014
Berlin, Germany

**Sven Egbers, International
Partnership on Mitigation and MRV**

**Jongikhaya Witi, Department of
Environmental Affairs, South Africa**

About the Partnership

Launched by South Africa, South Korea and Germany at the Petersberg Climate Dialogue in 2010, the Partnership encourages countries to step up mitigation ambition and carry out the transformation to a sustainable low-carbon society.

To this end, the Partnership supports the design, set-up and effective implementation of

- Low-Emission Development Strategies (LEDS);
- Nationally Appropriate Mitigation Actions (NAMAs);
- Intended Nationally Determined Contributions (INDCs);
- Measuring, Reporting and Verification (MRV) systems.

Regional Groups

African Regional Group

Asian Regional Group

Cluster Francophone

Latin American Regional Group

African Regional Group

1st African Regional Group Workshop

‘Tracking Mitigation Actions in
Africa’, May 2013, South Africa

Webinar on institutional arrangements for
MRV followed by an **e-discussion**

Webinar on legal frameworks for MRV
followed by an **e-discussion**

Capacity Building Offers through the Partnership

(1) Web-based formats

- (1a) Webinars
- (1b) E-learning
- (1c) E-discussion
- (1d) Mailing List

(2) Peer-to-peer exchange

Country X visiting country Y to
share experiences and learn
From each other

International Partnership on Mitigation and MRV

20.10.2014

Ministry of Environment
Republic of Korea

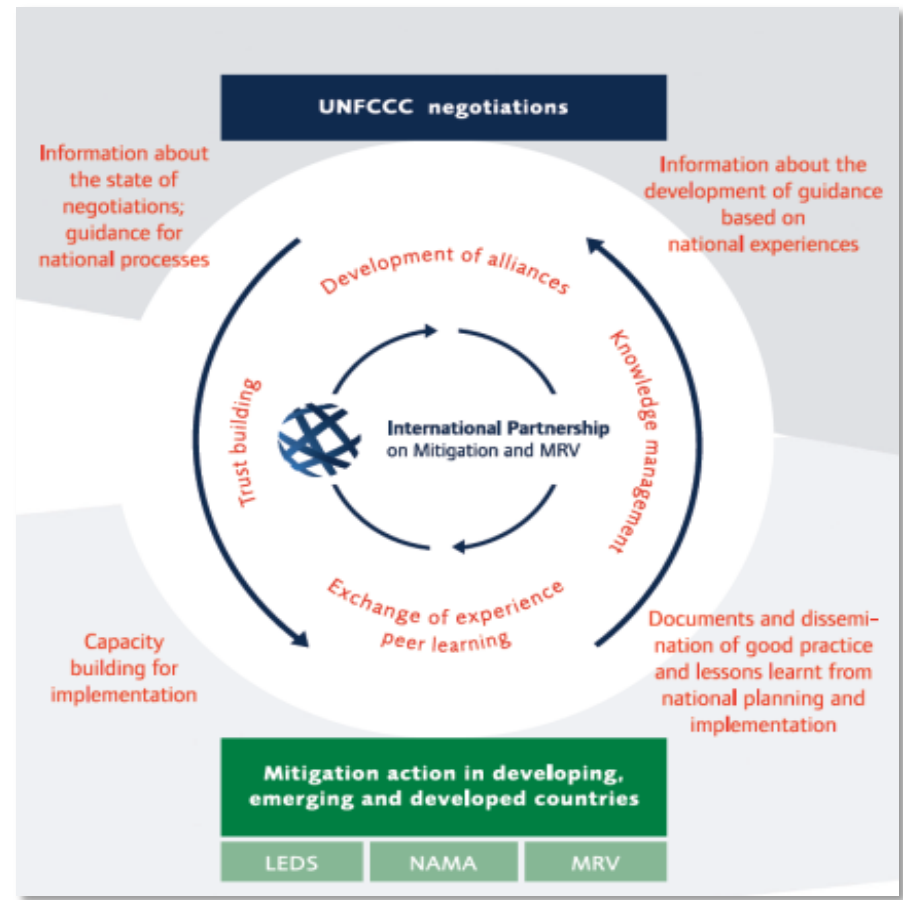

Federal Ministry for the
Environment, Nature Conservation,
Building and Nuclear Safety

About the Partnership

The Partnership facilitates the **exchange of good practice** on mitigation-related experiences and MRV between climate negotiators, policymakers and practitioners from more than 50 developing and developed countries in order to **share learning, build trust and inform the United Nations Climate negotiations.**

Activities

PARTNERSHIP

CAPACITY
BUILDING

Examples of Capacity Building Activities: International Summer School

**Autumn School 2012,
Berlin, Germany**
"MRV - Today, Tomorrow and
the Future"

**Summer School 2013,
Hanoi, Vietnam**
‘Tracking Progress and MRV
for GHG Emission Reductions’

Examples of Capacity Building Activities: Technical Workshops and Peer-Exchange

African Regional Workshop
‘Tracking Mitigation Actions in
Africa’, May 2013, South Africa

Francophone Regional Workshop
‘MRV of NAMAs’
December 2013, Tunisia

Latin American Regional Workshop
„MRV of NAMAs as a Key Element of
National MRV Systems“
March 2014 , Mexico

Examples of Capacity Building Activities: Upcoming Activities

Asia Regional Workshop:
“Tracking Mitigation Actions in Asia”,
Seoul, July 2014

Summer School 2014:
“Introduction and Background on
recent debates on ADP”,
Dominican Republic, Sept 2014

NAMA E-learning Course
Online available late summer 2014

Module 3: MRV of NAMAs and NAMA financing
Table of contents

International Partnership on Mitigation and MRV

Module 3: MRV of NAMAs and NAMA financing

- [Unit 1: Overview](#)
- [Unit 2: MRV of NAMAs – the basics](#)
- [Unit 3: Monitoring of NAMA impacts \(GHG, co-benefits, costs\)](#)
- [Unit 4: Reporting on NAMA impacts](#)
- [Unit 5: Verification of NAMA impacts](#)
- [Unit 6: NAMA financing](#)
- [Unit 7: Summary](#)
- [Unit 8: Self assessment](#)

This e-learning course on NAMA development has received financial support by the International Climate Initiative based on a decision of the German Bundestag. The concepts expressed in this course do not necessarily represent the views of the German government, or the endorsement of any approach described herein.

Appendix

Regional workshop and peer-exchange:

‘Tracking mitigation actions in Africa’

7 to 9 May 2013 - Magaliesberg, South Africa

- Host: South African Department of Environmental Affairs (DEA)
- 25 participants from 8 African countries: Egypt, Ethiopia, Ghana, Kenya, Mali, Tunisia, South Africa and Zambia
- **Photos, presentations and conclusions summary:**
www.mitigationpartnership.net/

Summer School:

‘Tracking Progress and MRV for GHG emission reductions’

20 to 28 August 2013 - Hanoi, Viet Nam

- **Host:** Ministry of Natural Resources and Environment (MONRE) Viet Nam
- **Participants:** policy makers, practitioners and negotiators representing 19 developing and developed countries from all world regions
Experts from WRI, Ricardo-AEA, Ecofys, Perspectives, South Pole, CAOS, GTripleC, The Energy and Resources Institute India (TERI)
- **Objective:** Getting to know methods for defining a domestic mitigation pledge and tracking progress towards this target
- **Photos, presentations and conclusions summary:** www.mitigationpartnership.net/
- **Full documentation report** will be published by 12/2013

Regional workshop and peer-exchange:

Francophone Regional Workshop on MRV of NAMAs

17-18 December 2013, Tunisia

- **Host:** Tunisian National Energy Agency (ANME)
- **Participants:** 63 policy makers from 17 mostly French speaking African countries (Tunisia, Cote d'Ivoire, Togo, Cameroon, Mauritania, Senegal, Guinea-Bissau, Kenya, Liberia, Mali, Gabon, Benin, Burkina Faso, Congo, Ghana, Egypt and Morocco)
- **Objective:** options and elements of MRV of NAMAs, including their advantages and disadvantages; exchange of experiences between experts and decision makers from different countries on MRV of NAMAs in different sectors; first step in the establishment of a French speaking group of experts which will continue to exchange on their areas of interest.
- **Photos, presentations and conclusions summary:** www.mitigationpartnership.net/

Regional workshop and peer-exchange:

‘Latin American Regional Workshop: MRV of NAMAs as a Key Element of National MRV Systems’

6–8 March 2014, Mexico City, Mexico

- **Host:** Peruvian Ministry of Environment (MINAM)
- **Participants:** more than 100 policymakers and technical experts from Argentina, Brazil, Chile, Colombia, Costa Rica, the Dominican Republic, Ecuador, Mexico, Peru and Uruguay.
- **Objective:** Exchange good practices and build capacities for the development of systems for the MRV of NAMAs in Latin America and the Caribbean; explore potential similarities and key differences between MRV processes applicable to facility-level greenhouse gas (GHG) reporting and NAMAs;
- discuss issues related to capturing the impacts of the NAMAs on national GHG inventories and reflect this in national GHG reporting.
- **Photos, presentations and conclusions summary:** www.mitigationpartnership.net/
