# AFOLU- Overall Context

Global Greenhouse Gas Emissions  
by Economic Sector

Source: EPA 2015

- Only sector that is not only a source, but also a sink
- Around 40 developing country NDCs include REDD+
- Huge mitigation potential that exceeds the current gap to the 2°C goal

## Accounting:

- Much development in terms of measuring/ monitoring still needed

And its share is much higher in developing countries
