# ICAT's support to countries

- ✓ Build / enhance transparency systems, including: institutional capacity; data systems; data quality
- ✓ Track progress in implementing the NDCs (in accordance with indicators chosen)
- ✓ Integrate/aggregate transparency at sub-national level and for non-state actors
- ✓ Assess impacts of policies, in term of GHG emissions and socio-economic and sustainable development parameters
- ✓ Identify domestic benefits from enhanced transparency systems, including in mobilizing finance

# Transparency to be used beyond reporting

**Looking beyond GHG emissions to socio-economic and environmental indicators, and investment-maturity**

**Thank you!**
