International NAMA Facility

Supporting the Implementation of NAMAs – Selection Process and Criteria

Miriam Ott/Anna Pia Schreyögg

German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety

Dr. Sebastian Wienges

GIZ

International NAMA Facility

Purpose

- › Building on existing support by funding the implementation of transformational NAMAs seeking support, thus delivering concrete results on the ground.
- › Raising ambition to close the emission gap and address the lack of NAMA climate finance.
- › Demonstrating a framework for providing tailor-made climate finance for developing countries in the field of mitigation.
- › Generating lessons learnt for the further development of international climate finance (architecture).

International NAMA Facility

Background

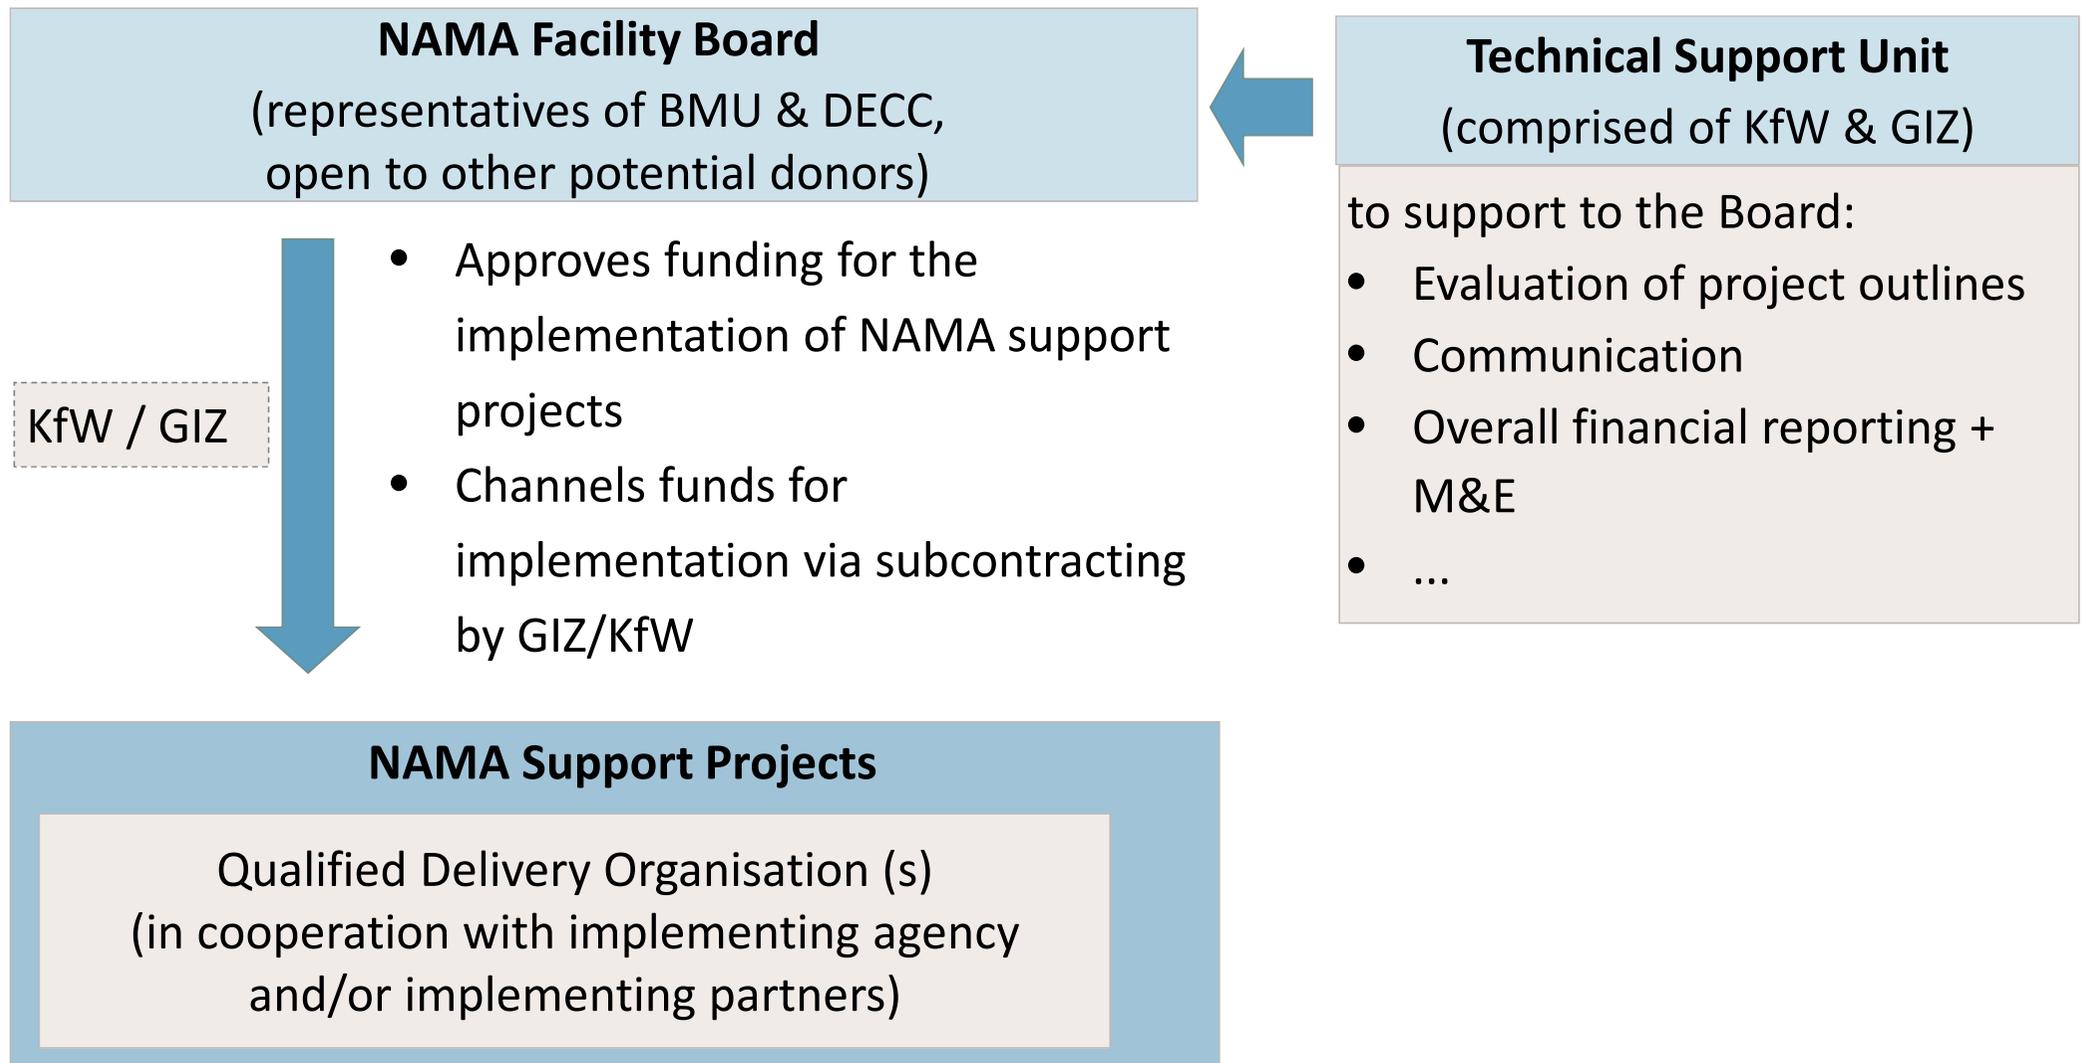

- › At COP-18 in Doha 2012, Germany and the UK announced to jointly provide € **70m of initial funding**, open for other donors
- › **External consultation process** with NAMA experts in the beginning of 2013 to ensure a robust governance structure and robust NAMA criteria
- › **1st Call for NAMA Support Project Outlines** published on July 10th 2013, closes on September 2nd, 2013
- › A first pilot programme will be supported in **Mexico (EcoCasa Programme)** to demonstrate the type of support, which the Facility has been designed for

International NAMA Facility

Means of Support

- › Support for the implementation of parts of NAMAs („**NAMA Support Projects**“) via the full range of development cooperation instruments:
 - › **financial support instruments** (grants, concessional loans and guarantees)
 - › and where closely aligned with financial instruments, **technical cooperation instruments** (e.g. capacity building)

International NAMA Facility Governance Structure

Selection of NAMA Support Projects

Template for the submission of outlines

1 General Information on the NAMA Support Project		
1.1 Project	Project number	To be determined by the Technical Support Unit of the NAMA Facility
	Project title	What is the title of the NAMA Support Project?
	Country of implementation	Please indicate the country where the NAMA Support Project will be implemented.
	Project start	[MM/YYYY]
	Project termination	[MM/YYYY]
	Overall Project volume (EUR)	2013
	Please indicate the required contribution of funding from the NAMA Facility for the overall project including all components (indicative basis)	2014
		2015
		2016
		2017
		2018
		2019
		Total
	Thematic focus	Please select the thematic focus
	Project type	Please select one of the following categories:
		Type A: Pure financial cooperation project
		Type B: Financial cooperation project with technical assistance component

Standardized template for the submission of outlines

› **Available on the BMU & DECC websites**

› **to be submitted to contact@NAMA-Facility.org by September 2, 2013**

Selection of NAMA Support Projects

Process

- › Outlines for NAMA Support Projects can be submitted by:
 - (i) national governments (with endorsement by a delivery organisation)
 - (ii) qualified delivery organisations (with strong government endorsement)
- › The selection of NAMA Support Projects will follow a **3-step process**:

STEP 1: Call for Submissions & Submission of Outlines for NAMA Support Projects

General Eligibility Criteria

Ambition Criteria

- Pre-Approval by the Board for NAMA Outlines
- Appraisal Mandate for pre-approved Outlines

STEP 2: In-depth Appraisal & Submission of Proposals for NAMA Support Projects

Feasibility Criteria

- Final Project Approval by the Board
- Mandate to delivery organisation

STEP 3: NAMA Support Project Implementation

Selection of NAMA Support Projects

General Eligibility Criteria

- › applied at the first step of the selection process to assess all outlines submitted to the NAMA Facility for support.
- › ensure that outlined NAMA support projects fulfil the **essential requirements** for their later implementation through financial and technical support instruments.
- › Outlines **need to fulfill all eligibility criteria in order to be further considered.**

Eligibility of the submitting entity	ODA eligibility	Degree of maturity
Endorsement by the national government	Time frame for implementation	Feasibility
Cooperation with a qualified delivery organisation	Financing volume	Concept for phase-out

Selection of NAMA Support Projects

Ambition Criteria

- › applied to all outlines for NAMA support projects, which have successfully been assessed against the eligibility criteria
- › ensure that the NAMA Facility supports the **most ambitious projects** available
- › assessed on a **point-grade system** to allow a ranking of all submitted NAMA support projects

Transformational Change Potential	Does the NAMA support project contribute to a transformation of the national or sectoral development towards a less carbon-intensive development path?
Co-benefits	Does the NAMA support project provide important additional development co-benefits beyond the reduction of GHG emissions?
Financial Ambition	Does the NAMA support project foresee or enable a substantial funding contribution from other sources?
Mitigation Potential	Does the NAMA support project foresee substantial direct and indirect GHG emission reductions?

Selection of NAMA Support Projects

Criteria for Qualified Delivery Organizations

- › To be eligible as a Delivery Organization, organizations need to
 - › be legal entities, **and**
 - › be not for profit organisations, public institutions or international organisations (financial cooperation: for profit institutions also eligible), **and**
- › Show a proven track record of:
 - › International presence (n/a to national development banks working in cooperation with organization that does have an international track record); **and**
 - › Expertise in the field of climate change mitigation; **and**
 - › Experience with the implementation of ODA and of programs/projects > € 5 Mio. (for consortiums, this criterion applies to the financial cooperation DO only); **and**
 - › Experience in working with governments and other public institutions; **and**
- › Be able to recruit staff in the respective partner countries (for TC projects only).
