International Partnership on Mitigation and MRV

Summer School

‘Tracking Progress and MRV for GHG Emission Reductions’ Viet Nam, August 2013

About the Partnership

- Launched by South Africa, Rep. of Korea and Germany at the Petersberg Climate Dialogue in 2010
- Initiated to support the design, set-up and effective implementation of
 - ❖ Low-Emission Development Strategies (LEDS);
 - ❖ Nationally Appropriate Mitigation Actions (NAMAs); and
 - ❖ Measuring, Reporting and Verification (MRV) systems.

With whom do we want to work?

The Partnership facilitates the **exchange of good practice** on mitigation-related experiences and MRV between

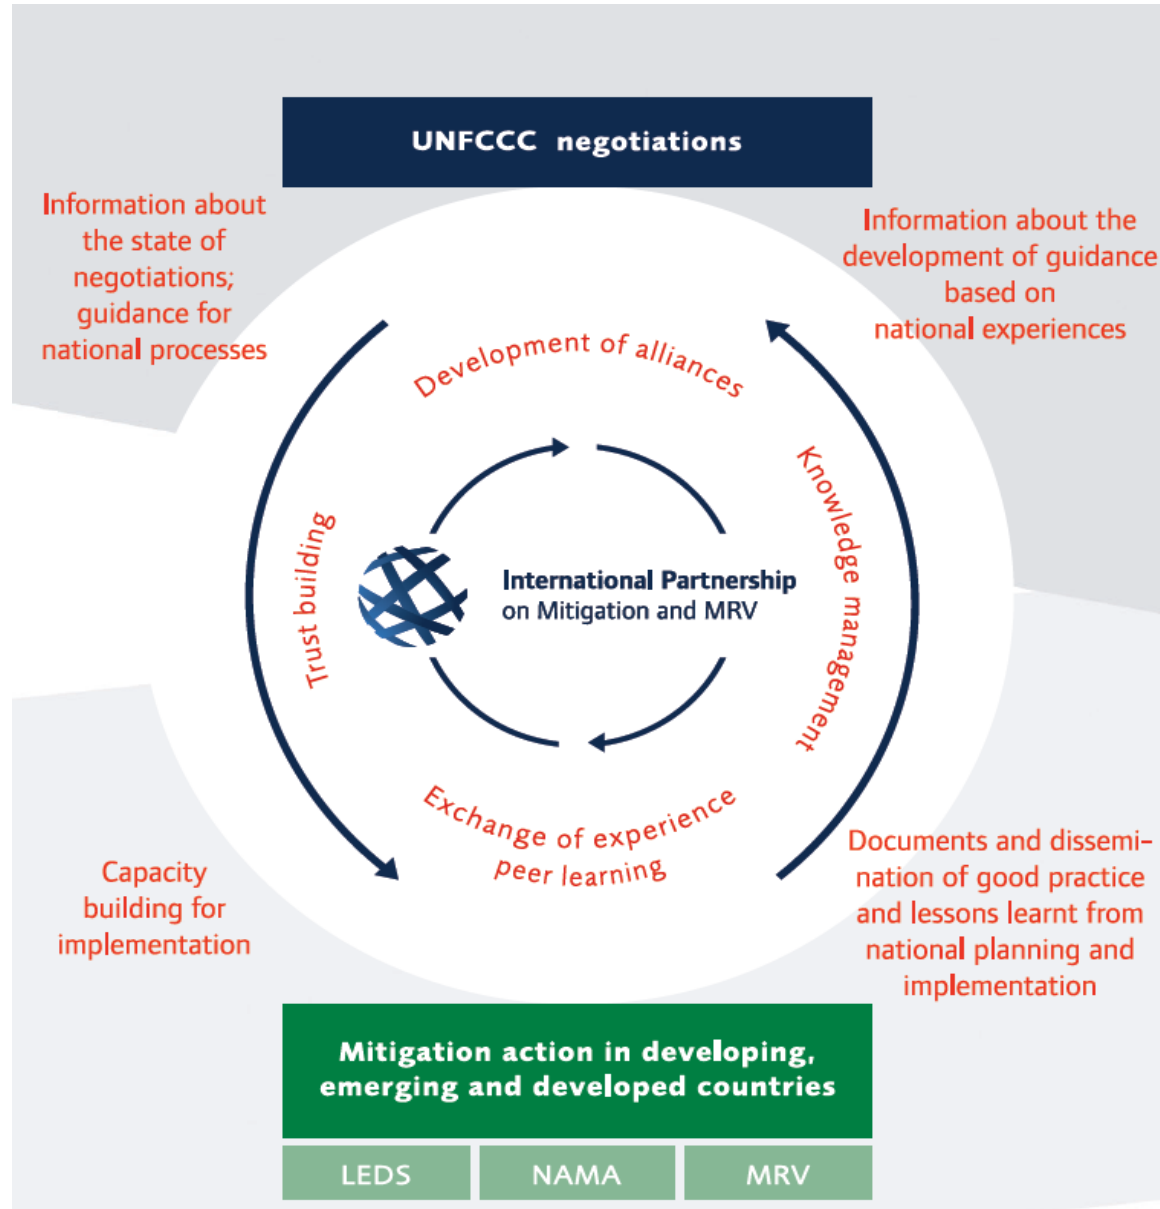

- ❖ **climate negotiators,**
- ❖ **policymakers and**
- ❖ **practitioners**

from more than 40 developing and developed countries in order to

- ❖ **share (peer) learning,**
- ❖ **build trust and**
- ❖ **inform the United Nations Framework Convention on Climate Change (UNFCCC) negotiations.**

How do we work?

International Workshops

Meeting back-to-back with the UN climate talks:

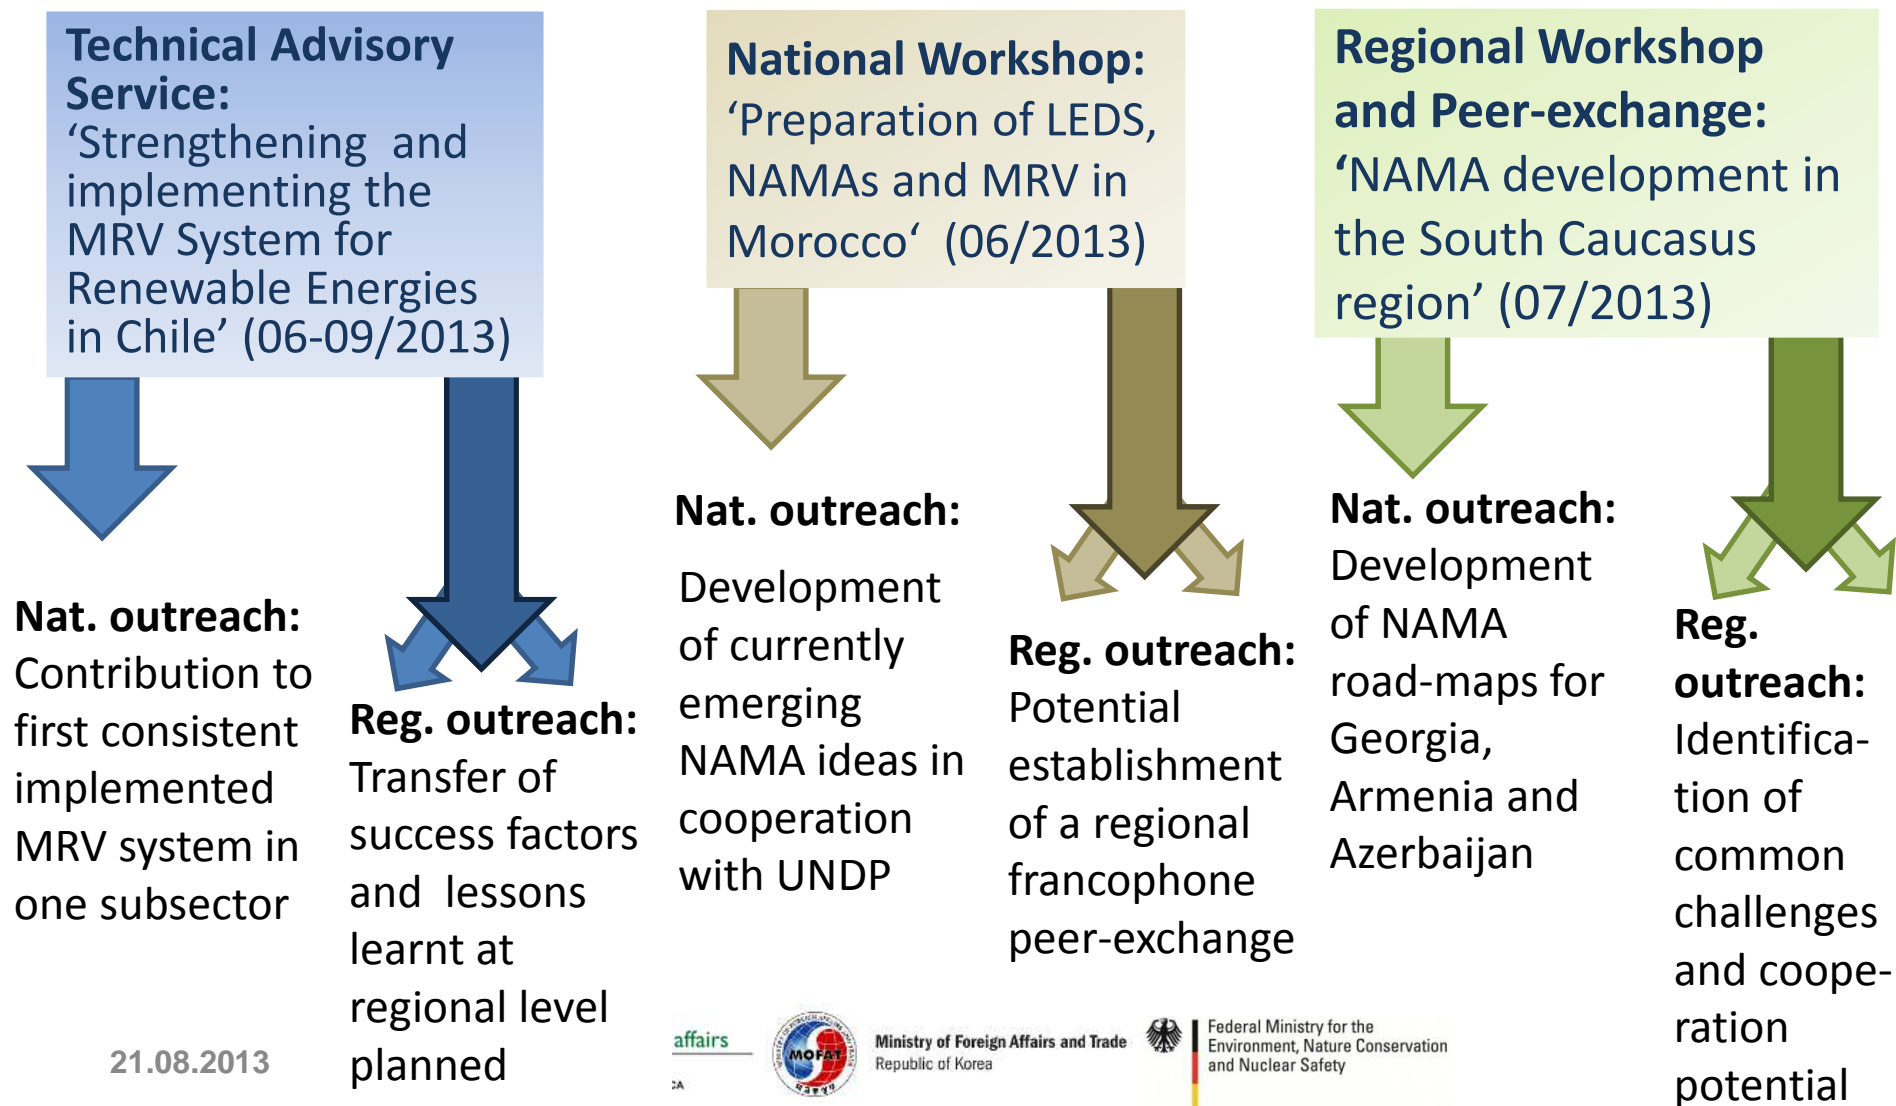

11th Meeting of the Partnership (9th of June in Bonn)

International Summer School:

2nd School of the Partnership (20th to 28th of August 2013)

National and regional capacity building

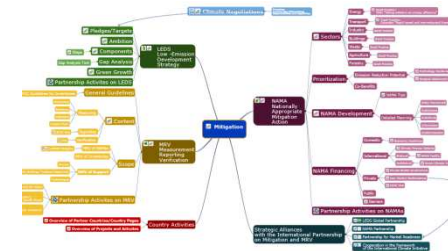

21.08.2013

Website: www.mitigationpartnership.net

1. **Country pages** providing overviews at a glance on relevant national mitigation strategies, activities, documents and projects
→ see section „Projects/Initiatives“
2. **Knowledge Map** providing overview of the Partnership's focus topics, related information, sources and initiatives
3. **Enhanced „News“- Section**
→ Members are invited to contribute news in English, Spanish or French to improve regional outreach

Mitigation Newsletter

International Partnership
on Mitigation and MRV

Mitigation Newsletter Issue no. 2, October 2012

Dear Partnership members and collaborators,

This second edition of the quarterly Mitigation Newsletter will give you insight into the Partnership's first Autumn School: "MRV – today, tomorrow and the future", which took place in Berlin in October 2012. High-level representatives from 23 developing and developed countries took part in this event. The Newsletter also includes a review of the

latest technical workshops carried out as part of the Partnership's capacity-building programme. These have taken place in Chile, Thailand and Costa Rica. The 'Input from Partnership Members' section contains contributions from Partnership focal points in Colombia, South Africa and Indonesia, who provide information about progress with regard to mitigation plans and actions at national and local level in their countries. You will also find details on recently launched projects, publications and upcoming events surrounding low emission development strategies (LEDS), nationally appropriate mitigation actions (NAMAs) and MRV.

Finally, we are pleased to announce the launch of the new [members-only area](#) on the Partnership website. Members can log in here to submit information to be published online on projects and events and gain access to summary reports, photos and presentations on Partnership meetings. Furthermore, the [Pinboard Section](#) provides a forum for discussing topics of interest, sharing documents and networking with other members.

The third issue of this newsletter is scheduled for publication in January 2013; we look forward to receiving your feedback as well as input on relevant climate action in your countries at: info@mitigationpartnership.net

Thank you for your interest.
Enjoy your reading!

The Partnership Secretariat

Founding partners:

environmental affairs
Department:
Environmental Affairs
REPUBLIC OF SOUTH AFRICA

Ministry of Foreign Affairs and Trade
Republic of Korea

Federal Ministry for the
Environment, Nature Conservation
and Nuclear Safety

- Trimonthly distribution to the Partnership members, project implementers and other interested experts worldwide
- **Country contributions** up to now from: Argentina, Australia, Brazil, Chile, Costa Rica, Colombia, Dominican Republic, Egypt, Ghana, Indonesia, Lebanon, Mexico, Morocco, New Zealand, South Africa, Tunisia and Viet Nam.
- **Fourth edition** has been distributed in June 2013, **fifth edition** scheduled for August/September 2013.
- **Subscription:**
<http://www.mitigationpartnership.net/subscribe>

Objectives 2013-2015

- Unpack what is meant by **‘variety of enhanced action’**, which some refer to as a **‘spectrum of commitments’**.
- Broaden the understanding of the national implication of **‘transparency and accountability’** in a 2015 climate agreement.
- Support partner countries as **regional champions**

International Partnership
on Mitigation and MRV

Objectives of the Summer School

Participants will have an overview of the international climate debate.

Participants will explore elements necessary to define a pledge (scenarios, NAMAs incl. their finance) and methodologies to develop them.

Participants will know how to track progress towards different kinds of pledges.

environmental affairs
Department:
Environmental Affairs
REPUBLIC OF SOUTH AFRICA

Ministry of Foreign Affairs and Trade
Republic of Korea

Federal Ministry for the
Environment, Nature Conservation
and Nuclear Safety

Summer School 2013: Overview of the agenda

Tuesday:

- Getting to know each other
- Expectations
- Setting the scene

Wednesday:

- Emission scenarios
- baseline setting
- From scenarios to pledges

Thursday:

- Prioritization and selection of NAMAs
- From NAMAs to pledges

Friday:

- Financial architecture of a NAMA
- Financing options

Summer School 2013: Overview of the agenda

Saturday:

Excursion to

- a) National Park
- b) NAMA site-visit

Sunday:

DAY OFF

- 1) Ha-Long Bay
- 2) City Tour

Monday:

- MRV systems
- MRV of NAMAs

Tuesday:

- Tracking progress
- Double counting
- Different types of pledges

Wednesday: Wrap up
