

# **Workshop objectives and German INDC support activities**

Anja Wucke

Division Environment & Climate Change

Global WS on INDCs, 14 April, Berlin

## Objectives of the global INDC Workshop

- To provide a **forum for exchanging country experiences** on the preparation of INDCs
- To discuss both **technical and political process** issues related to the design of countries' INDCs
- To update countries on **recently published guidance** for designing and preparing INDCs;
- To identify INDC-related **challenges** that are arising in countries and discuss **lessons learned and possible solutions** for timely submission of INDCs
- To **take stock of INDCs** that have been submitted to UNFCCC

Empowered lives.  
Resilient nations.

LOW EMISSION  
CAPACITY BUILDING  
PROGRAMME

**giz** Deutsche Gesellschaft  
für Internationale  
Zusammenarbeit (GIZ) GmbH

## Programme and daily

Day 1

**Sets the stage** for the workshop, discusses the **relevance of INDCs** in the global climate change framework, provides an overview of UNDP/WRI guidance for INDCs, and brings in **concrete INDC examples**

Day 2

Goes deeper into **technical themes related to INDC preparation**, looks at INDCs in the context of national development priorities, and highlights useful resources for INDC preparation

Day 3

Discusses inclusion of possible **adaptation** components in INDCs, **MRV** in the context of INDCs, an **assessment of progress** toward the 2°C goal, and options for **enhancing ambition** in the future

Federal Ministry for the  
Environment, Nature Conservation,  
Building and Nuclear Safety

European  
Commission

Australian Government

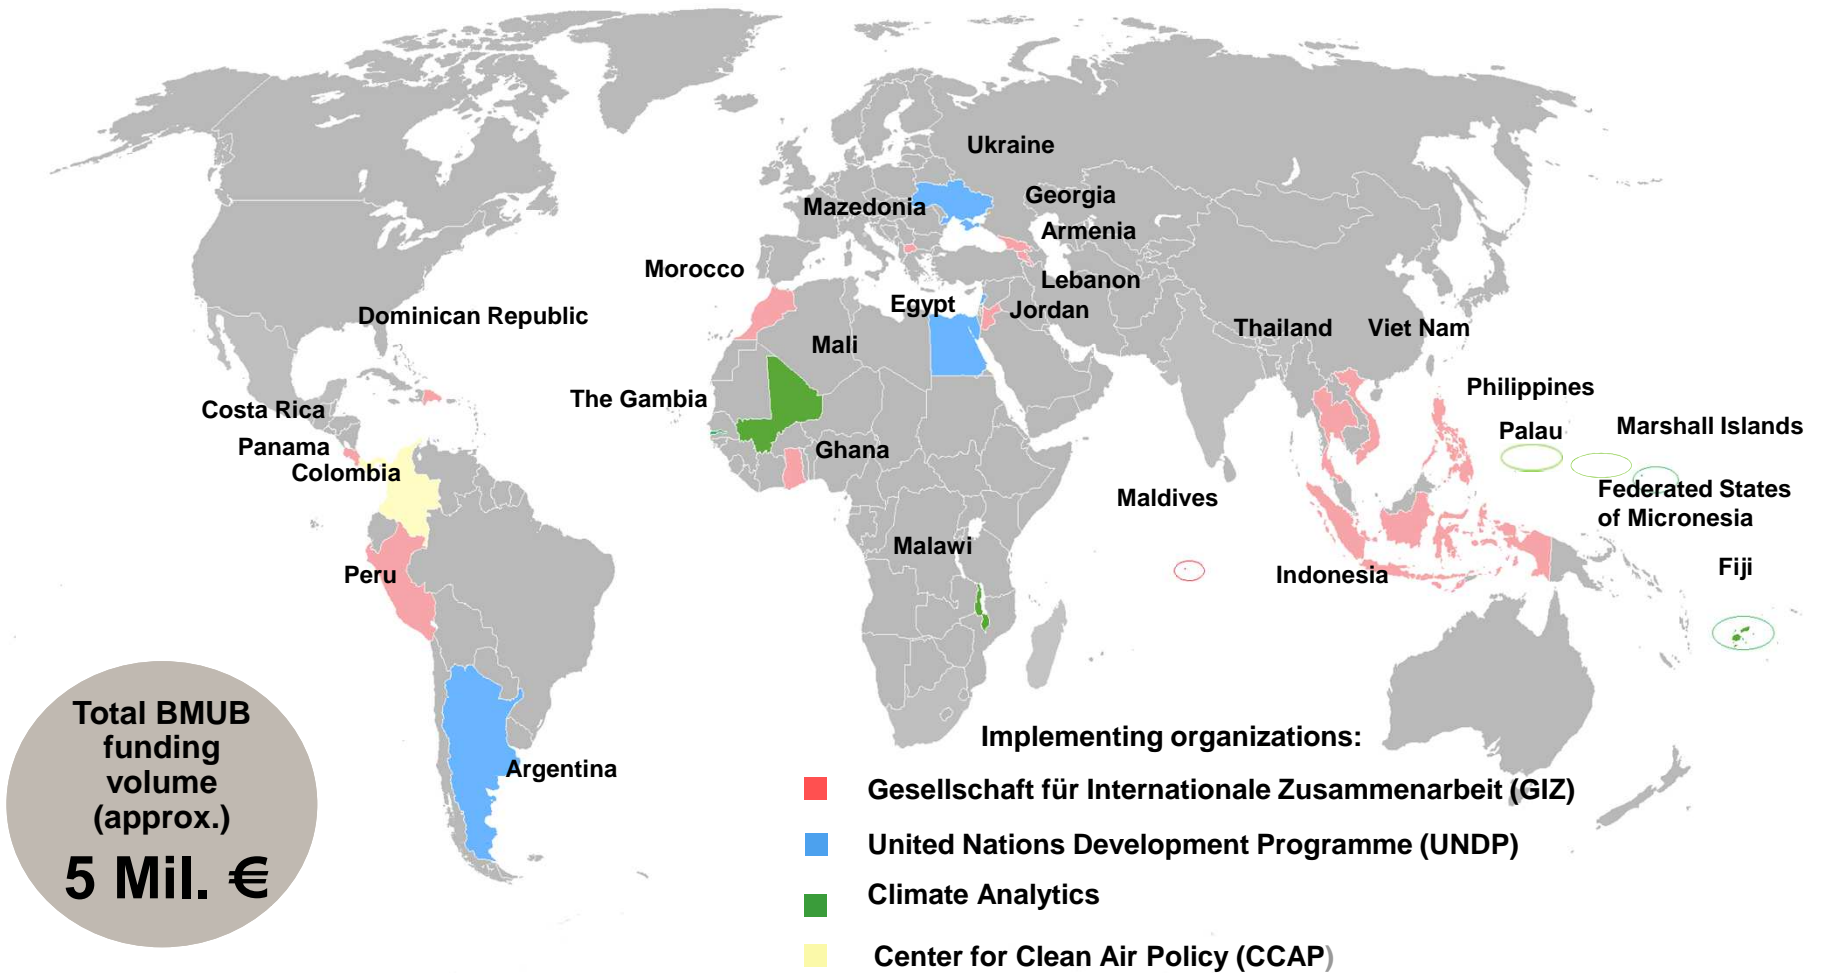

## Overview on German INDC support

- Support on INDC to **Peru**: GIZ, 800.000 Euro
- **NIS** Capacity Building programm : GIZ, 200.000 €
- Mitigation Implementation Action Network (CCAP; 300.000, LAK)
- Global INDC Support Project (GIZ, 3,5 Mio Euro)
- Further **some support** via:
  - International Partnership for Mitigation and MRV
  - World Bank - Partnership for Market Readiness
  - UNDP – Low Emission Capacity Building programme
  - German Federal Ministry of Economic Cooperation and Development/ GIZ Climate Change Support Programme

# German support for the preparation of INDCs via IKI funds

## Global Support Project for the Preparation of INDCs

- Duration: June 2014 – December 2015
- Supports 16 Partner countries plus
- Ad-hoc support for up to 10 additional countries
- Addresses climate negotiators and decision makers commissioned with the design and implementation of climate policies
- Financed by the International Climate Initiative (IKI) of the Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (BMUB)
- Carried out by GIZ in collaboration with the UNDP Low Emission Capacity Building Programme and Climate Analytics.

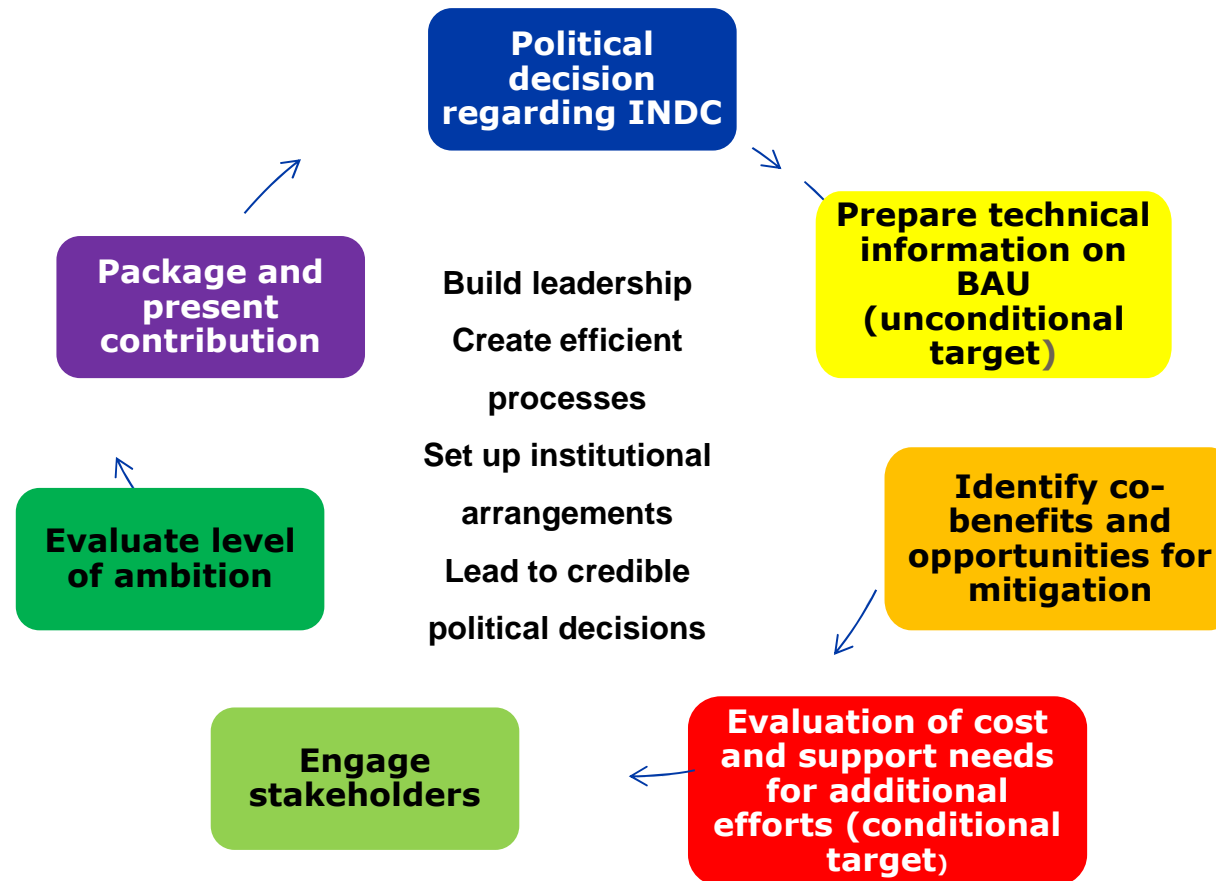

## What has happened so far to support countries in preparing their INDC at **global level** ?

- ✓ Process Guidance (Study by Ecofys) on how to develop ambitious but feasible INDCs
- ✓ Stocktaking of planned and ongoing INDC support processes for exchange between individual countries
- ✓ Foster (regional) peer-to-peer exchange and knowledge management (Summer School in Punta Cana, Dom. Rep.)
- ✓ Provision of general Terms of Reference for technical studies and analyses in individual countries
- ✓ Global workshop (4/2015) on lessons learnt, challenges and strategies to overcome those
- ✓ Webinars, conference calls on specific issues

## INDC preparation process (according to Ecofys Process guidance)

## How GIZ supports partner countries in preparing their INDC...at **national level** ?

- Process facilitation and technical support for inter-ministerial agreement on mitigation goal, stakeholder consultation and for roadmap development
- (Technical) analyses and studies (e.g. on development of BAU, mitigation potentials, etc.)
- Workshops to embed INDC in LEDS, to operationalize INDCs as NAMAs, to establish MRV systems
- Supporting political decision-making processes for the submission of INDCs and the implementation thereof
- Foster (regional) peer-to-peer exchange and knowledge management
- Donor coordination

## What has been supported so far... **at national level ?**

- **Peru:** Technical support e.g. development of a working plan and workshops, advise on process and involvement of stakeholders

- **Philippines:** support to the INDC-dialogue with the private sector

- **Thailand:** Support to workshops, establishment of working plan and technical studies on mitigation potentials

- **Gambia:** Support to 2 workshops, focus on energy, transport, waste, agriculture, Policy review, reflection of INDC-planning assumptions
