## IMPLEMENTATION PARTNERS

## SUPPORTING PARTNERS

# ICAT = Initiative for Climate Action Transparency

Support the development of domestic MRV System and  
Monitoring of policies and actions

by

Providing Capacity-Building on MRV system related topics

Providing Guidances on the monitoring of policies and  
actions in specific sectors/sub-sectors

# ICAT Summary

- Multi-donor fund (a public-private partnership), located at UNOPS, with Donor and Advisory Committees
- Outputs:
  - ✓ **Methodologies as a global common good:** Tools for policymakers and stakeholders to collect more robust and consistent data
  - ✓ **Capacity building:** Starting with ~20 countries using ICAT's tool box, resulting in improved national MRV systems supported by sustainable institutional and legislative arrangements
  - ✓ **Platform for learning:** Feedback and peer exchange on methodologies, policy and capacity building

7) Cambodia

8) Colombia

9) Peru

10) Dominican Republic

11) Ecuador

12) Morocco

13) Senegal

14) Thailand

15) Rwanda

16) Brazil

17) Indonesia

18) Mexico

19) Philippines

20) Trinidad & Tobago

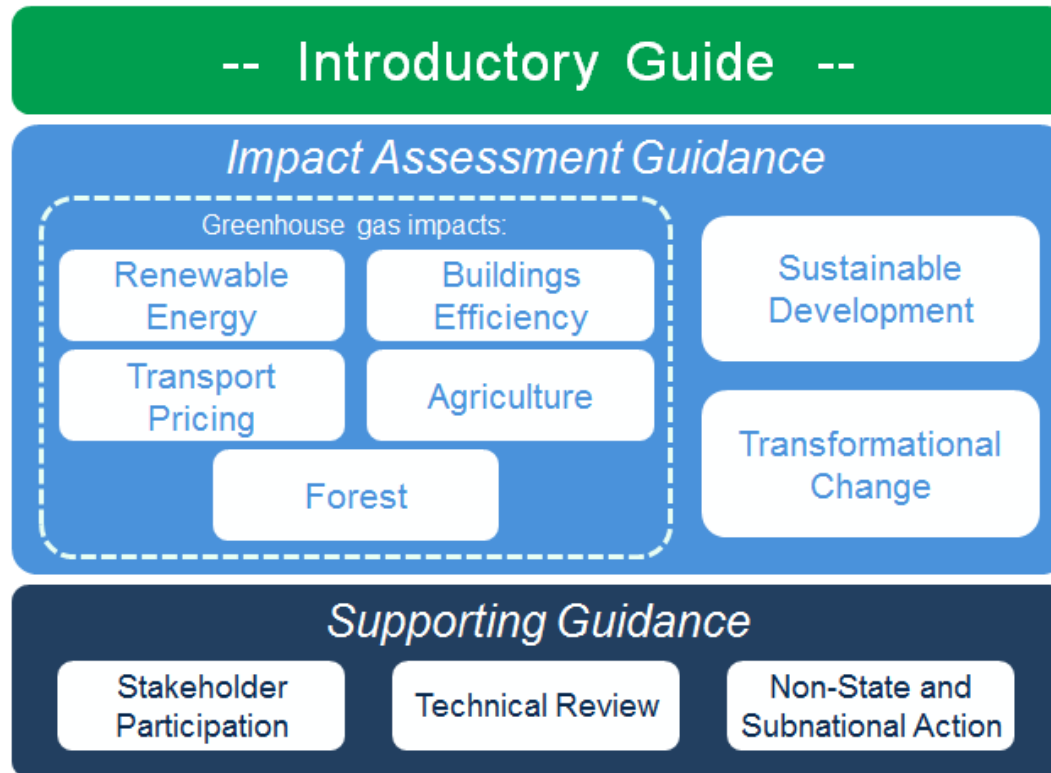

21) India

# ICAT - PILLAR 1

## Guidance development

# ICAT series of guidance, first drafts

Guidance documents issued for public consultation (26 July), runs for 60 days (24 Sep) EXTENDED

<https://collaborase.com/icat>

# ICAT - PILLAR 2

## Country engagement

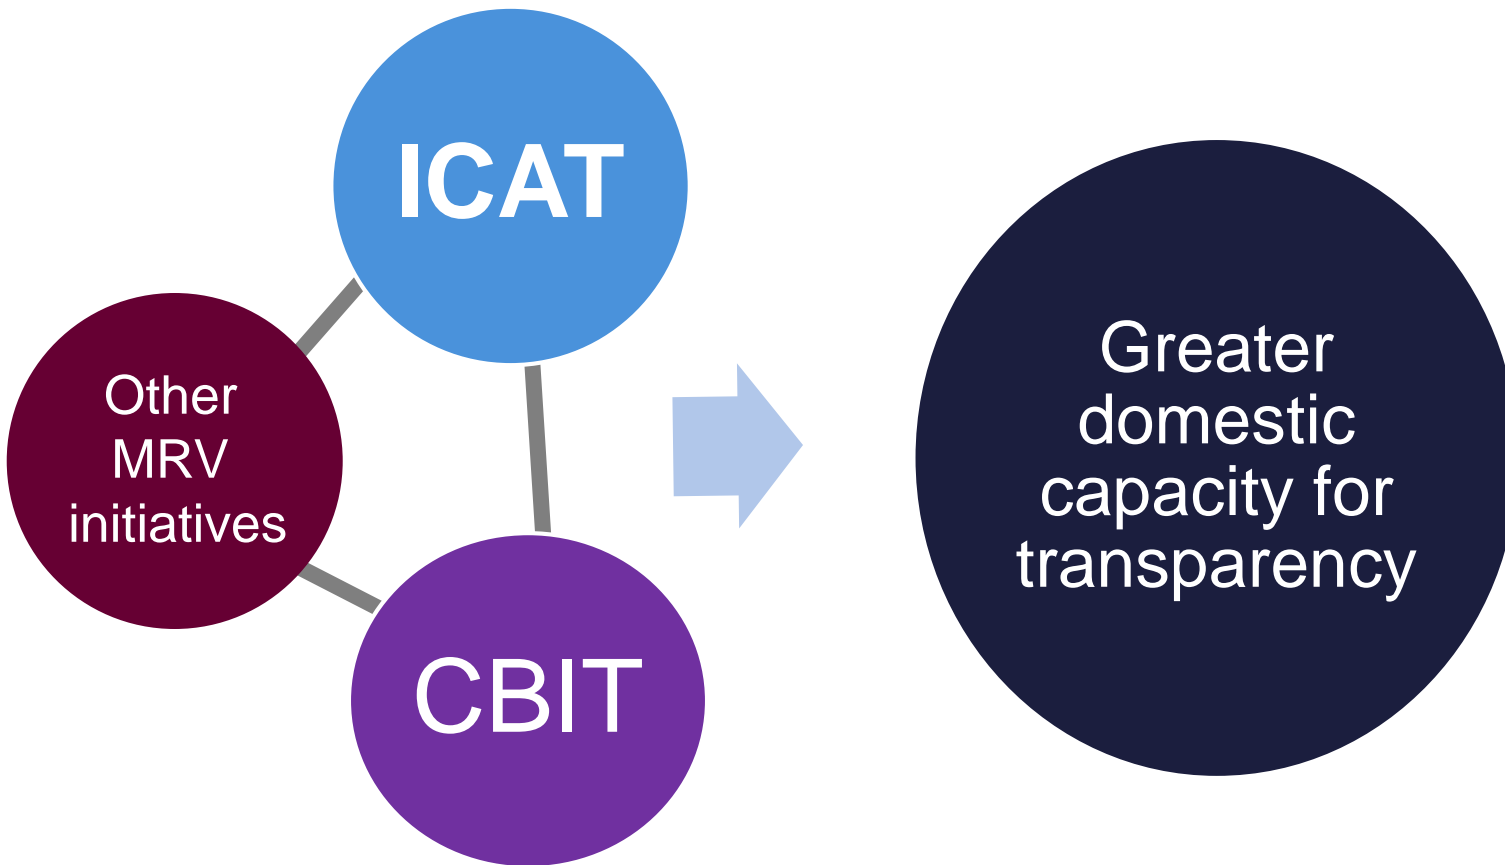

# Country Engagement

## Strengthen domestic MRV by:

- ✓ Assess existing MRV efforts and goals
- ✓ Design country-specific capacity building programs with national stakeholders
- ✓ Develop road map considering regulations, procedures, and roles and responsibilities
- ✓ Provide training on MRV concepts, methods, and tools, including:
  - Iterative testing of and engagement on Pillar I outcomes
  - Continued observation of future UNFCCC reporting requirements

# Synergy With Other Initiatives

Building on and Mapping existing work, in particular: GHG impacts, sustainable development impacts transformational changes
