Partnership on Transparency
in the Paris Agreement

04 November 2021	11:30 - 12:45	UNFCCC, Adaptation: Launch of the 2021 UN Environment Programme's Adaptation Gap Report	Secretariat of the United Nations Framework Convention on Climate	South Downs (Multimedia Studio 1)	Presentation of the key findings from the 2021 Adaptation Gap Report and a discussion around implications for the UNFCCC process with UNEP's ED	
04 November 2021	13:15 - 14:30	UNFCCC: Consultative Group of Experts-achievements in 2020&2021 and engagement with national experts	Secretariat of the United Nations Framework Convention on Climate Change	Derwentwater (44 pax)	The event will showcase opportunities for technical support and advice available with the Consultative Group of Experts to developing country Parties to implement the existing MRV arrangements under the Convention and transition to the ETF under the Paris Agreement.	More information here
04 November 2021	15:00 - 16:20	Mutual Trust and Confidence : Challenges and Lesson Learned in implementing Article 13. Paris Agreement	Indonesia (PATPA speaker)	Indonesia Pavilion	Article 13 of the Paris Agreement established an enhanced transparency framework for action and support, with built-in flexibility which takes into account Parties' different capacities and builds upon collective experiences. This side event is aimed to highlight the added-value of the enhanced transparency framework at the national level, as well as challenges and best-practices. It will focus on two main issue: - Which are the main challenges around the implementation of the ETF in each country? - What are the kinds of capacity-building needs in each country?	
04 November 2021	15:00 - 16:15	Building capacity and tracking climate action to empower women and girls	SouthSouthNorth Projects Africa; Fundación Futuro Latinoamericano	Loch Lomond (144 pax)	To achieve gender equality under the Paris Agreement: 1.Climate actions must intentionally empower women. 2.Diverse actors need capacity building to apply gender approaches. 3.MEL systems must capture the impacts for different social groups. We share tools and experience from CDKN on how to do this. Speakers: Ms Shehnaaz Moosa, SouthSouthNorth (SSN) Ms Mairi Dupar and Ms Patricia Velasco, Climate and Development Knowledge Network (CDKN) Mr Pablo Lloret or Ms Gabriela Villamarin, Fundacion Futuro Latinoamericano (FFLA) Ms Beza Tesfaye, Mercy Corps Mr Harko Koster,	Guide
04 November 2021	16:00 - 17:30	Data tools to track government support measures for fossil fuels	OECD	OECD COP26 Virtual Pavilion	To enhance transparency and help governments to commit to reforms, the OECD and its partners have designed data tools that provide detailed information on support measures for fossil fuels that could be considered for a phaseout. Such data tools cover both consumer and producer support and complement existing tracking efforts of other international organisations. They allow researchers and governments to track national and global progress towards achieving climate objectives. This session will showcase these data tools explaining their functionalities, content and how they be used for analytical and policy use. The session will also highlight complimentary data source for emissions resulting from fossil	More information

Partnership on Transparency
in the Paris Agreement

04 November 2021	16:45 - 18:00	Equity in (and beyond) the Global Stocktake	University of Cape Town (UCT); Climate Action Network Canada (CAN-Rac); Climate Equity Reference Project Canada (CERP)	Skomer (Multimedia Studio 2)	This event presents the results of a year-long series of engagements among university thinkers, think tanks, and civil society organizations on the most salient equity issues arising across the themes of the global stocktake and those that are beyond its formal scope. Speakers: Presentations of equity issues across the GST themes (adaptation, finance, mitigation, loss and damage) (TBC, 5-10 mins each) plus equity issues outside the GST scope and how to deal with them; then a panel discussion and questions and comments from the audience.	
05 November 2021	13:15 - 14:30	UNFCCC, Transparency: Curtail deforestation: how to measure progress? REDD+ tools and methodologies	Secretariat of the United Nations Framework Convention on Climate Change (UNFCCC)	Loch Lomond (144 pax)	The coordination of initiatives to incentivize the forest sector to contribute towards global net zero by mid-century requires robust national forest monitoring systems and transparent reporting. This side event will explore the experience with tools and methodologies for national REDD+ reporting. Speakers: Speakers from the Food and Agriculture Organization of the United Nations, the Global Forest Observation Initiative, the Coalition for Rainforest Nations and the UNFCCC secretariat will present on tools and	
05 November 2021	13:15 - 14:30	UNFCCC, Means of Implementation: High Level Event on the Needs of Developing Countries	Secretariat of the United Nations Framework Convention on Climate Change (UNFCCC)	Strangford Lough (175 pax)	The purpose of this high-level event is to provide an update of support provided and progress in facilitating the access and mobilization of climate finance for the implementation of priority mitigation and adaptation needs identified by developing countries.	
05 November 2021	14:00 - 15:00	Tracking a moving target: How to measure progress and policy effectiveness in adapting to climate change	OECD; UK Department for Environment Food and Rural Affairs	OECD COP26 Virtual Pavilion	The UK Department for Environment Food and Rural Affairs (Defra) and the OECD are organising a roundtable to discuss the critical need for, as well as existing challenges and achievements in, measuring progress in implementing national adaptation policies. Country representatives will come together to share insights and discuss key policy priorities their countries are pursuing to accelerate progress in adaptation measurement. The discussions will benefit from an ongoing OECD work that supports countries in strengthening their adaptation measurement frameworks. Panellists will reflect on how these experiences can inform a broader international debate on measuring, and reporting on, achievements in climate change adaptation, notably under the Global Goal on Adaptation. Moderation: Andrew Carr, Head of Adaptation Science, Climate Evidence, Department for Environment, Food and Rural Affairs (Defra)	More information

Partnership on Transparency
in the Paris Agreement

06 November 2021	13:15 - 14:30	UNFCCC: The Paris Agreement Implementation and Compliance Committee	Secretariat of the United Nations Framework Convention on Climate Change (UNFCCC)	Strangford Lough	PAICC is a central building block of the architecture of the Paris Agreement. It aims to enhance the effectiveness of the Agreement's implementation and compliance, as well as to ensure accountability of Parties for their performance. Speakers: Ms. Christina Voigt (Co-Chair of the PAICC), Mr. Haseeb Gohar (Co-Chair of the PAICC), Mr. Felix Ross (Director of the Legal Affairs Division, UNFCCC), Ms. Jimena Nieto, Professor of international	Watch here
06 November 2021	13:15 - 14:30	UNFCCC: Support opportunities available to developing country Parties for implementing MRV and ETF	Secretariat of the United Nations Framework Convention on Climate Change (UNFCCC)	Loch Lomond (144 pax)	The GEF and other international partners showcase the financial, technical and capacity-building support opportunities available to developing country Parties for implementing the MRV arrangements under the Convention and transitioning to the enhanced transparency framework under the Paris Agreement. Speakers: GEF, GSP, IPCC, ICAT, CCMRVH	
06 November 2021	14:45 - 16:00	From BURs to BTRs: Challenges and opportunities for Lusophone Countries	PATPA Cluster Lusophone	hybrid, BENELUX/EIB Pavilion	Several representatives from Portuguese speaking countries will present and discuss their experiences and needs. The exchange aims to build capacity in order to meet the reporting and transparency obligations included in the framework of the UNFCCC and its Paris Agreement. The main questions are: How can Lusophone countries go from zero BURs to one BTR? How are they going to make that leap already in 2024? What do these countries (almost all) need? And what role could the Lusophone Cluster play in this context?	More information here
06 November 2021	15:00 - 16:15	Mobilizing Green Finance to catalyze Climate Action: Lessons from multilateral and bilateral funds	HATOF Foundation; Ghana	Glen Affric (Multimedia Studio 3)	Showcasing Ghana's efforts and challenges in mobilizing green finance at scale and lessons learnt from vertical climate trust funds, carbon finance, national budget and bilateral funds in promoting eco-innovation and climate change adaptation and mitigation solutions. Speakers: - Ministry of Finance, Ghana - Prof Kirk Semple–Lancaster University, UK - Dr Akanimo Odon –Lancaster University, UK - Ministry of Environment & STI, Ghana - Environmental Protection Agency - Forestry Commission, Ghana - Samuel Dotse–CEO, HATOF Foundation - CCAC	
06 November 2021	17:00 - 18:30	Negotiating the Paris Agreement: The Insider Stories	Secretariat of the United Nations Framework Convention on Climate Change (UNFCCC)	Climate Action Room 1	What were the driving forces behind the adoption of the Paris Agreement, and what can be learnt from this in terms of facilitating more effective negotiations in future? Key insiders share the "behind closed doors" story of the Paris negotiations and discuss the future of climate diplomacy...
